

CVR Software Release Announcement – IL EVR Version 3.2A

Introduction

CVR is pleased to introduce Illinois Electronic Vehicle Registration (IL EVR), Software Release 3.2A. The features of this release are included in the body of this document.

Required Installation Date

Release should be installed as soon as received.

System Requirements

The Illinois EVR software requires the following minimum PC configuration:

- A Pentium II (or better) running Windows XP Professional or Vista Business operating system.
- A VGA Monitor or better (**Note:** Display resolution should be set at 1024x768 as a minimum in order to display all features of the system).
- At least 512 MB of RAM.
- At least 30 MB of available hard-disk space for the program files.
- At least 35 MB of available hard-disk space for database files.
- At least 1 approved laser printer
- A broadband (high speed) Internet connection
- A mouse and a compatible keyboard.

New Features in this Release

- **Renewals with VIN's less than 17 digits allowed**

The IL EVR software has been updated to allow processing of Renewals with VIN's that have less than 17 digits.

- **Insurance Information is optional for Renewals**

When processing a Renewal the IL EVR software has been updated to allow the Insurance Information field to be optionally required.

The screenshot shows the CVR1 software interface for processing a Renewal. The top navigation bar includes icons for Owner, Vehicle, Sales, Lien, Plate, and Renewal. The main form is divided into several sections:

- Renewal Information:** Fields include Renewal Bar Code, VIN (1234), Plate No., Current Expiration (//), Unit No., Circuit Breaker No., Plate Type (dropdown), Reg Cert (with Clear button), Sticker (with Clear button), and File No.
- DL / FEIN / ID Number:** Fields include Owner, Customer No., and Co-Owner.
- Residence/Company Address:** Fields include Address, Zip, City, State (dropdown), and County (dropdown).
- Insurance Information:** Fields include Name, Policy No., and Expiration (//).

Two callout boxes provide additional information:

- A box pointing to the VIN field states: "VIN field allows Renewals with VIN numbers less than 17 digits. VINs need to be at least 4 digits."
- A box pointing to the Insurance Information fields (Name, Policy No., Expiration) states: "Insurance Information field is now optional when processing a Renewal and no longer a required field."
